The **Free the Miami Five Youth Campaign** is made up of young people from all over Ireland acting together with young people from across the world for justice for the Miami Five. These five men are political prisoners held in US jails in violation of US law, international law, and basic human rights.

★ Since the Cuban Revolution in 1959 the Miami mafia have murdered 3,479 innocent Cubans and tourists in Cuba.

★ The US government has encouraged them, funded them, and even pardoned them when the courts found them guilty.

★ Five Cubans, having infiltrated these terrorist groups, collected damning evidence about them in order to save lives and prevent terrorism. They then presented this evidence to the FBI, blowing their cover in doing so.

★ The five men were then arrested by the US authorities and, without charge or trial, held illegally for 17 months.

★ The families of the five men have been denied their visiting rights. This has been condemned by Amnesty, the European Union and humanitarian organisations as a flagrant denial of human rights and abuse of international law.

★ During the trial, various members of the jury complained of intimidation and monitoring by known gangsters hostile to the men's case. Nothing was done.

★ The five men won their appeal in the Atlanta Appeals Court, only to have this decision overturned in questionable circumstances.
